

Structural Mass Spectrometry Workshop

May 3-8, 2017 | The David Lopatie Conference Centre,
Weizmann Institute of Science, Rehovot, Israel

About the Workshop

Mass spectrometry (MS) is becoming increasingly popular in the field of structural biology for analyzing protein structures and for mapping protein-protein interactions. Various MS-based approaches have been developed over the years to provide insights into the structural properties of protein complexes. Therefore, the aim of this workshop is to expose students and researchers interested in structural biology to the arsenal of tools offered by structural mass spectrometry.

Registration deadline - February 15, 2017

Invited Speakers

Uri Alon

Weizmann Institute of Science, Israel

Shira Albeck

Weizmann Institute of Science, Israel

Perdita Barran

University of Manchester, UK

Julia Chamot-Rooke

Institut Pasteur, France

Nir Kalisman

Hebrew University of Jerusalem, Israel

Neil Kelleher

Northwestern University, USA

Kevin Pagel

Freie Universität Berlin, Germany

Yoav Peleg

Weizmann Institute of Science, Israel

Argyris Politis

King's College London, UK

Dana Reichmann

Hebrew University of Jerusalem, Israel

Carla Schmidt

Martin Luther University Halle-Wittenberg, Germany

David Schriemer

University of Calgary, Canada

Michal Sharon

Weizmann Institute of Science, Israel

Andrea Sinz

Martin Luther University Halle-Wittenberg,
Germany

Frank Sobott

University of Antwerp, Germany

Tamar Unger

Weizmann Institute of Science, Israel

Vicki Wysocki

Ohio State University, USA

Organizing Committee

Michal Sharon

Weizmann Institute of Science, Israel

Dana Reichmann

Hebrew University of Jerusalem, Israel

Conference Coordinator
