

Day 1 (Oct. 6 (Fri))

Start	End	No.	Speaker/Title
13:00	13:10		Opening
13:10	13:40	I-1	Hiroshi Tsugawa (Tokyo University of Agriculture and Technology, Japan) Multimodal mass spectrometry-based metabolomics environment in MS-DIAL 5
13:40	14:10	I-2	Masaru Nishiguchi (Shimadzu Corporation, Japan) High-resolution multi-turn time-of-flight mass spectrometer for biopharmaceutical analysis
14:10	14:50	I-3	Susumu Uchiyama (Osaka University, Japan) Orthogonal methods for size distribution analysis of adeno-associated virus vector for gene therapy
14:50	15:10		Short Break
15:10	15:40	I-4	Sastia Prama Putri (Osaka University, Japan) Mass spectrometry-based metabolomics for improvement of food quality
15:40	16:20	K-1	Hyun Joo An (Chungnam National University, Korea) Glycotechnology Empowered by LC-MS/MS at the Crossroads of Xenotransfusion
16:20	17:20		Break and lab tour
17:20	18:00	K-2	Koichi Tanaka (Shimadzu Corporation, Japan) Innovation from Analytical and Medical Technologies
18:00			Mixer

Day 2 (Oct. 7 (Sat))

Start	End	No.	Speaker/Title
10:00	10:20	I-5	Kohta Nakatani (Kyushu Univeristy, Japan) Wide-scope targeted analysis of bioactive lipids by LC/MS/MS
10:20	10:40	I-6	Kosuke Ogata (Kyoto University, Japan) Ultrahigh throughput proteomics with high-speed and high-sensitivity LC/MS/MS system
10:40	11:00	I-7	Eisuke Kanao (Kyoto University, Japan) Development of Spongy-like Polymer for Isolation, Subclassification, and Characterization of Extracellular Vesicles
11:00	11:40		Short Presentation for Posters
11:40	12:20		Poster (odd)
12:20	13:00		Poster (even)
13:00	14:30		Luncheon & Technical Reports
14:30	15:00	I-8	Nobuyuki Okahashi (Osaka University, Japan) Untargeted analysis of microbial metabolites using mass spectrometry
15:00	15:40	I-9	Hiroshi Nakayama (RIKEN, Japan) Characterization of mRNA therapeutics by liquid chromatography – mass spectrometry
15:40	16:00		Short Break
16:00	16:40	K-3	Shang-Te Danny Hsu (Academia SINICA, Taiwan) Functional annotation of GlycoSHIELD for highly glycosylated proteins
16:40	17:20	K-4	Kevin Downard (University of New South Wales, Australia) 25 Years Responding to Respiratory and Other Viruses with Mass Spectrometry
17:20			Award ceremony & Closing
